Scrum Master / Agile Coach

Tbilisi, Hybrid

To strengthen our teams, we are looking for an experienced Scrum Master / Agile Coach to join us as soon as possible. If agile transformation is your passion, you'll have the opportunity to apply your expertise in practice, work independently with our teams, and actively help shape our agile processes and ways of working, all in an innovative environment with a strong team spirit.

What awaits you

As a Scrum Master (all genders), you'll support our IT teams on challenging projects. You'll coach your team and remove obstacles - always keeping a clear eye on the technical, business, and regulatory requirements.

- You'll guide our agile teams through all Scrum events and ensure that agile principles are consistently applied - especially in challenging projects.
- You'll support product and IT teams in developing solutions that meet regulatory, technical, and business requirements.
- You'll identify and remove obstacles early on, protect the team from disruptions, and create an environment where high-quality results can be achieved in a banking context.
- Working closely with business analysts, developers, test teams, and architects, you'll develop sustainable solutions for modern systems.
- You'll actively integrate AI tools into teamwork - for more efficient refinement, automated sprint reporting, and AI-supported risk assessment.

- Your knowledge of software development and agile methods helps you understand technical discussions, identify risks early on, and support teams with both methodological and technical expertise.
- Whether it's regulatory requirements, integration complexity, or system stability, you ensure that our IT projects are implemented reliably, transparently, and with a view to the future.

What we expect from you

- **Personal Background:** Nice if you have a certification PSM I, II, or III, CSM, SSM or any related certification.
- **Skills:** You have strong skills in Jira, Miro, or other scrum tools, MS Office, are tech-savvy and ideally have some initial practical experience in the IT industry.
- **Mindset:** You are organized, structured, motivated, open-minded, and reliable.
- **Better Together:** You enjoy working in a team and exchanging ideas, whether in person, over the phone, or remotely via video call.
- **AI Understanding:** You are interested in modern AI tools and their practical applications in everyday tasks.
- **Let's Talk:** You are proficient in written and spoken English - excellent (and possibly German)? So, you'll fit right in at Exxeta.

Why Exxeta

- At Exxeta we challenge the traditional concept of consulting and tech. Over 1,200 colleagues at 18 various locations across Europe work together every day to create digital solutions, change markets and transform mindsets - driven by our passion for technology, our team spirit and the drive to create real impact. In other words: High-tech with a heartbeat.
- We are a home for people who want to make a difference. Diversity and different perspectives enrich our team. Attitude, ideas, and a drive to get things done - that's what matters to us!
