(Senior) Java Developer (m/f/d)

📍 **Location: Bratislava, Slovakia**

**At Exxeta, we challenge the traditional concept of consulting and tech. Every day, more than 1000 colleagues in different locations create digital solutions, change markets and transform mindsets - driven by our passion for technology, our team spirit and the urge to create real impact. In other words: High tech with a heartbeat.**

As a (Senior) Developer Frontend (m/f/d) you will work in a motivated team on new digital products and service platforms. You will work independently on the design, development and integration of Frontend components and be significantly involved in the development of ideas prototyping, conception and implementation. Clean code and focus to detail are just as important among colleagues, as the opportunity to contribute your own ideas and develop new topics.

(Mobile working is possible)

What awaits you

- Analysis of customer requirements and their implementation with agile procedures in the team
- Independent Frontend development of sophisticated software solutions
- Constant evaluation of new/improved development technologies
- Participation in the continuous improvement of the Frontend according to IT trends and IT standards
- Technical and professional support in the development of new product ideas
- Assumption of responsibility as well as continuous improvement of the development process and active contribution to our team

What we expect from you

- A degree in the field of (business) informatics, comparable courses of study or trainings
- Professional experience as a web developer with profound knowledge of JavaScript, HTML5, CSS3 and SASS
- Experience with various web frameworks such as Angular, TypeScript, Bootstrap, Vue.js and React as well as with version control systems and Frontend development tools is desirable
- Enjoy complex development environments as well as changing project requirements
- Very good knowledge of English – English level B2
- Good knowledge of German is an advantage, as Exxeta s.r.o. mainly supports German projects of Exxeta AG in Germany

Why Exxeta

- Take on challenging tasks in in-house development
- Develop your skills further through continuous training, conference participation and internal knowledge exchange
- Enjoy a professional environment within a relaxed, friendly corporate culture
- Mobile working? Night owl or early bird? With us you will find enough space for an optimal work-life balance
- Stay healthy – our company supports you with a fixed health budget for individual services

We are a home for tech enthusiasts and doers. Origin, age, preferences - it doesn't matter to us. What counts is that we burn for the common cause.

We are already looking forward to getting to know you!
